OPERATING, MAINTENANCE AND WARRANTY INSTRUCTIONS**FOAM SEATING CUBE**

1. Product Identification

The seating cube is intended for indoor use and short-term outdoor use for seating or as an advertising medium.

2. Operating Instructions

- Use on a flat and stable surface
- Do not expose to sharp objects
- Do not overload
- Do not leave permanently outdoors
- Avoid contact with chemicals

3. Maintenance**Cover care:**

- The cover is made of 100% polyester fabric. Clean soiled areas with lukewarm water (max. 60 °C) using a mild soap-based or detergent-based cleaning agent
- Do not use products containing bleaching agents or fabric softeners
- Dirt can be removed using a foam sponge or a soft cloth
- After cleaning, rinse the cover with clean water and allow it to dry completely. During drying, do not expose the cover to direct radiant heat
- Clean the cover only with mild cleaning agents
- Do not remove the cover unless it is designed to be washable
- Protect from water

Storage:

- Before long-term storage, clean thoroughly and allow to dry completely
- Store in a dry place

4. Material, Manufacturing and Graphic Processing

- **Fabrics and water resistance:**

The fabrics used are factory-treated with an impregnation that provides increased water repellency. However, these materials are not 100% waterproof.

- **Material and colour selection:**

If the customer does not explicitly specify the colour, type, or manufacturing method in the order, the manufacturer reserves the right to select a suitable variant based on current material availability and technological possibilities.

- **Graphic motifs and seam alignment:**

For printed products, please note that complex or large-scale graphics may not always align precisely across sewn parts and may partially overlap seams or material folds.

- If precise graphic alignment or positioning outside seams is required, we recommend creating a graphic preview or, for larger orders, a sample, or consulting this requirement in advance with a sales representative or production department.

5. Warranty Terms

5.1 Warranty Period

- Construction: 24 months
- Textile cover and print: 12 months

The warranty period begins on the date the product is received.

5.2 Warranty Coverage

The warranty covers manufacturing defects in materials and workmanship that prevent normal use of the product. Depending on the nature of the defect, MONTIS CZ s.r.o. will provide repair, replacement, or an appropriate price reduction.

The method of warranty settlement is determined by the manufacturer.

5.3 Warranty Exclusions

The warranty **does not** cover :

- damage caused by improper handling or transportation
- use in unsuitable weather conditions
- normal wear and tear of materials and colour changes caused by UV radiation
- cracks, tears, or damage caused by mechanical stress
- moisture, mould, rust, oils, chemicals, or improper cleaning
- intentional damage, third-party interference, and force majeure events (storms, wind, fire, flooding)

Normal fading of the print and slight colour changes after 6 months of outdoor exposure are considered a natural effect of UV radiation and are not considered defects.

7. Service and Spare Parts

MONTIS CZ s.r.o. ensures the availability of spare parts and service support during and after the warranty period.

If repair is not feasible, the manufacturer may offer an equivalent replacement or an appropriate price reduction.

8. Final Provisions

These warranty terms and operating instructions are valid from 1 January 2025 and replace all previous versions.

All legal relationships are governed by Act No. 89/2012 Coll., the Civil Code.

Statutory rights of the buyer are not affected by the application of this warranty.
